

Would you like
GLOWING
 and more
EVEN-TONED
 skin?

Stress, pollution and realities of our busy lives can compromise the vitality of our skin.

Refresh is a unique *Quanta Skin App*, available only on the Chrome Lase Station. This non-invasive laser treatment targets dark spots and sun damage, leaving skin more **even-toned** and **brighter**. **Recharge** your skin with Refresh.

WHO

is it right for?

Refresh is recommended for those who are looking to **target** age-spots, fine-lines and wrinkles, and other **signs of aging**.

HOW

does it work?

Refresh uses different laser technology to target specific layers of your skin. One laser stimulates collagen and elastin production, promoting **firmer** skin with fewer fine lines and wrinkles. The other laser targets pigment for **more even-toned skin**.

Refresh is a non-invasive light skin resurfacing without any downtime.

AGE SPOTS

LIGHT SKIN RESURFACING

FOLD

WHAT

to expect?

Avoid sun exposure or tanning for two months prior to treatment

Sessions generally last less than 30 minutes

One may feel a light prickling sensation

Skin may be slightly red and brown spots may darken temporarily

Apply SPF 50+ cream and avoid harsh cosmetics for 1 month

Can see results after 1 to 4 treatments

FOLD

WHY

should I try it?

- Refresh complexion
- Smooth fine lines and wrinkles
- Erase age and dark spots
- Improve skin tone and texture
