Revivo

Quanta System
LASER IN OUR DNA

Would you like to
SHINE BRIGHT
like a
DIAMOND
again?

Revivo is the **Quanta Skin App** focused on the **full-face skin treatment** of multiple photoageing conditions.

The laser light is capable of targeting melanin of unwanted benign pigmentations, small blood vessels and collagen in superficial skin layers.

The laser treatment is fully **non-invasive** and selective for specific ageing signs to help your **skin bloom again**.

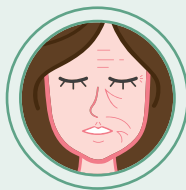

To whom is it **RECOMMENDED?**

This treatment has been designed to people with **multiple photoageing conditions**: all skin wrinkles, age spots, lentigos and/or superficial benign vascular lesions (small vessels and telangiectasias).

It will be possible to observe a **smoother skin** with gradual **wrinkles flattening** and progressive fade of superficial blood vessels and brown spots.

**BENIGN
VASCULAR
LESIONS**

**ALL SKIN
WRINKLES**

**BENIGN
PIGMENTED
LESIONS**

A MAGIC WAND FOR YOUR SKIN.

How does IT WORK?

No sun or tanning lamps for 2 months prior to the treatment

1 to 4 treatments, depending on skin status

About 30 minutes

Skin cooling or anesthetizing cream to reduce discomfort

Temporary redness, swelling, darkening of brown spots and capillaries

Apply cold packs for few days and SPF 50+ cream for 1 month

What **RESULTS**
should you expect?

A FULL ENERGY-BOOSTER FOR YOUR SKIN
